

**Michael B. Bragg, Ph.D.**

Dr. Michael B. Bragg, Frank & Julie Jungers Dean of Engineering, joined the University of Washington in 2013. In that capacity, he serves as the chief academic officer of the college and provides leadership to over 255 faculty and more than 8,100 students. The College of Engineering at the University of Washington is a top-25 nationally ranked engineering college with annual research expenditures exceeding \$142 million.

Bragg is an international expert on the effect of ice accretion on aircraft aerodynamics and flight safety who has been nationally recognized for his research and teaching. He has authored over 200 technical publications, and continues to maintain an active research program. Under his guidance more than 70 graduate students received their advanced degrees. He is a fellow of the American Institute of Aeronautics & Astronautics and has received the AIAA Aerodynamics Award and Losey Atmospheric Science Award.

Prior to joining UW, Bragg held numerous leadership positions in the College of Engineering at the University of Illinois at Urbana-Champaign, including head of the aerospace engineering department, associate dean for research and administrative affairs, executive associate dean for academic affairs, and interim dean. Bragg earned his bachelor's and master's degrees in aeronautical and astronautical engineering at the University of Illinois at Urbana-Champaign and a Ph.D. from The Ohio State University.
