Review of Minutes

✓ June 5, 2018 - APPROVED

Course Proposals (see below)

- *See table below for new and modify course proposals*
-

New Business

- Position on double degrees –
 - Some departments have asked for guidance on allowing students to pursue double degrees, especially with two engineering majors. The main concern is that one student with double engineering majors takes a spot in one of those majors from another student.
 - Brian Fabien discussed this with department chairs over the summer with the general consensus that double degrees should not be permitted. Brian will bring this up again at the next Executive Committee meeting and bring back to CEP.

Adjourn

- Autumn Meeting schedule: November 16, November 20, December 4
