-

Course Proposals (see below)

- *See table below for new and modify course proposals*

1. **Programs**

- *DIV credit for HCDE special topics course*
 - *Process for approving DIV credit for special topics*
- HCDE 298 is a one-time special topics course that the department has requested DIV credit for. Question to committee to see if the committee should approve these or if they can be reviewed by Academic Affairs staff. This would only be for special topics course; permanent courses need to submit DIV requests through a course change proposal.
- The committee looked at the requirements for a diversity credit eligible class to see if it fit the requirement. This type of course may also be one that could in the future also be a W credit but they are not asking for that at this time.
- The committee moved to approve the proposal.
- It was decided that the committee in the future would like to look at Special Topics add-on credits.
