

# Seeds

## SUMMER EARLY ENRICHMENT IN ENGINEERING FOR DEAN'S SCHOLARS

### WHAT IS SEEDS?

- A multi-week transition program for new Direct to College students
- An opportunity to experience the UW prior to the start of autumn quarter
- A chance to engage with College of Engineering students, faculty and staff
- A gateway to academic success

### WHAT WILL I DO IN THE PROGRAM?

- Take math, chemistry and academic success skill courses to prepare for the rigor of University-level course work
- Attend engaging information sessions on UW engineering majors, services, programs and organizations
- Apply engineering principles in UW maker spaces or departmental labs
- Challenge yourself with team building activities
- Tour local companies seeking to diversify their engineering workforce
- Interact with other diversity transition programs

### WHAT ABOUT ROOM & BOARD?

- Reside in campus housing and receive a meal card for UW dining locations
- Go home on open weekends if you wish

### WHY SHOULD I PARTICIPATE?

- Get a head start on how to navigate the UW and the greater Seattle area
- Sharpen your math and chemistry skills
- Earn 3 I&S/DIV credits through ENGR 201
- Establish a support network of peers and professionals
- Develop skills to compete for selective programs and scholarships

### WHAT IS THE COST?

- No cost for the provided room and board
- No additional cost to students who register for fewer than 19 credits during autumn quarter (ENGR 201 will be part of your autumn quarter credits)

### 2019 PROGRAM DURATION

August 26 - September 18
